INSTRUCTIONS FOR USE

Firmly grasp the PaperTiger and place it against the wall. Move it in a circular or linear motion so that perforations are made in the wallpaper no less than one inch apart. The more holes, the better the penetration of the wallpaper stripper. The rotating scoring heads allow movement in any direction. **Do not press, let the tool do the work.** Excessive pressure may damage the wall surface. **Use caution when handling. Blades may be sharp.**

Apply DIF Wallpaper Stripper to dissolve old paste and loosen wallpaper. Scrape off loose wallpaper. Use Paper Scraper to remove the wallpaper without gouging the wall. To remove residual adhesive, re-apply DIF Wallpaper Stripper. Rinse with clean water.
