PRODUCT APPLICATION

READ ALL INSTRUCTIONS CAREFULLY BEFORE STARTING PROJECT

SURFACE PREPARATION

Surfaces should be clean, dry, sound and free of dirt, grime, grease, oil, wax, mildew, wallpaper adhesive or any contamination that may interfere with adhesion. Remove loose paint, dirt and rust.

PRODUCT APPLICATION (cont.)

APPLICATION

Use at room temperature 21°C (70°F) in a well ventilated area. Avoid high humidity. Shake can vigorously for one minute after the mixing ball begins to rattle. Turn can upside down and continue shaking for one minute – shake occasionally during use. If mixing ball fails to rattle DO NOT STRIKE CAN. Contact Rust-Oleum. Spray 25-30 cm from the object with short 'dusting' strokes. Keep the can the same distance from the surface. Keep the can in motion while spraying. To permanently block heavy odours, use Zinsser B-I-N® Ultimate Stain Blocker. **Do not use near open flame.**

DRY & RECOAT

Dry and recoat times are based on 21°C (70°F) and 50% relative humidity. Allow more time at cooler temperatures. Dries in minutes; topcoat in 30 minutes with acrylic or oil-base paints. For best results, allow primer to cure overnight before applying strong solvent-base topcoats.

CLEAN-UP

Wipe off tip before storing. Clean-up wet paint with xylene or mineral turps. Properly discard empty container. Do not burn or place in home trash compactor.

CLOGGING

If the valve clogs, twist and pull off spray tip and rinse in a solvent such as mineral turps. Do not insert any object into can valve opening.
