**RUST-OLEUM®**  
SPECIALTY

**SPECIALTY  
REFLECTIVE SPRAY**

**DESCRIPTION AND USES**

Rust-Oleum® Specialty Reflective Spray is a semi-transparent finish that reflects light for nighttime visibility and safety. Surfaces painted with Reflective Finish appear bright when headlights illuminate it. Ideal for use on mailboxes, gates, trash cans, light posts, bicycles, driveway rocks and more.

**PRODUCTS**

SKU	Description
214944	Reflective Spray

**PAINTING CONDITIONS**

Use outdoors or in a well ventilated area. Use when temperature is between 50-90°F (10-32°C) and humidity is below 85% to ensure proper drying. Do not apply to surfaces, when heated, exceed 200°F (93°C). Do not apply to galvanized steel. Avoid spraying in very windy and dusty conditions. Cover surrounding area to protect from spray mist.

**PRODUCT APPLICATION**

**SURFACE PREPARATION**

Remove all dirt, grease, oil, salt and chemical contaminants by washing the surface with a commercial detergent, or other suitable cleaning method. Rinse with fresh water and allow to thoroughly dry.

Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. LEAD IS TOXIC. Contact the U.S.EPA/Lead Information Hotline at 1-800-424-LEAD or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

**PRODUCT APPLICATION (cont.)**

**APPLICATION**

Shake can vigorously for one minute after the mixing ball begins to rattle. If mixing ball fails to rattle DO NOT STRIKE CAN. Contact Rust-Oleum. IMPORTANT! Shake can approximately 4 seconds for every 15 seconds of use. Hold can upright 10-16" from surface and spray in a steady back-and-forth motion, slightly overlapping each stroke. Keep the can in motion while spraying. Keep the can the same distance from the surface. Apply 2-3 light coats 1-2 minutes apart. DO NOT APPLY HEAVY COATS THAT LOOK WET. The effect works best when light coats are applied. **Do not use near open flame.**

**DRY & RECOAT**

Dry and recoat times are based on 70°F (21°C) and 50% relative humidity. Allow more time at cooler temperatures. The finish dries to the touch in 1-3 hours. Allow 5-9 hours to handle and 24 hours to fully dry.

**CLEAN-UP**

Clean valve immediately after use by turning can upside down and depressing the spray button for 3-5 seconds (some paint will be sprayed out, so be careful to not inadvertently spray yourself or other objects). Clean up wet paint with xylene or mineral spirits. Properly discard empty container. Do not burn or place in home trash compactor.

**CLOGGING**

If the valve clogs, twist and pull off spray tip and rinse in a solvent such as mineral spirits. Do not insert any object into can valve opening.

**TECHNICAL DATA**

**REFLECTIVE SPRAY**

**PHYSICAL PROPERTIES**

Physical Properties		REFLECTIVE SPRAY
Resin Type		Modified Alkyd
Pigment Type		Varies with color
Solvents		Acetone, Aromatic Hydrocarbons, Toluene
MIR		1.40 Max
Fill Weight		10 ounces
Practical Coverage at Recommended DFT (assumes 15% material loss)		Approximately 4-5 sq.ft./can (0.4-0.5 m <sup>2</sup> /can)
Dry Times at 70-80°F (21-27°C) and 50% Relative Humidity	Touch	1-3 hours
	Handle	5-9 hours
	Fully Dry	24 hours
Dry Heat Resistance		200°F (93°C)
Shelf Life		5 years
Flash Point		-156°F (-104°C)
Safety Information		For additional information, see MSDS.
