Product Use: HICHEM Rust Not (Colour Range) is a single pack, industrial finish applied by brush, roller or spray onto various surfaces

HAZARD IDENTIFICATION

The product is classified as Dangerous Goods and Hazardous Substance in accordance to SAFE WORK AUSTRALIA (HSIS) and GLOBALLY HARMONISED SYSTEM (GHS) criteria.

GHS Requirements
Classification of the substance or mixture
Flammable liquids – (Category 2)
Dermal, Inhalation and Eye Irritation – (Category 2)
Acute Toxicity – inhalation dermal, oral (Category 3)
Environment – Aquatic Organisms

DANGER

H 225 Highly Flammable Liquid and Vapour
H 302 + H 312 + H 332 Harmful if swallowed, in contact with the skin and if inhaled
H 320 + H 315 + H 335 Can cause eye, skin and respiratory irritation.
H 402 + H 413 Harmful to aquatic life and may cause long lasting harmful effects to aquatic life

PRECAUTIONARY REQUIREMENTS

General Requirements
P 102 Keep out of reach of children.
P 103 Read label before use.

Prevention
P 210 Keep away from heat sources, electrical discharges (sparks), naked (open) flames and ignition sources. **NO SMOKING.**
P 233 + P 234 + P 410 Keep original containers tightly closed when not in use and stored in a well ventilated area away from heat and sunlight.
P 261 Avoid inhaling vapours and spray mists. Ensure there is adequate ventilation at all times.
P 264 Wash all exposed skin and hair with warm water and soap after use.
P 270 When using, do not eat, drink or smoke.
P 273 Avoid release to the environment including waterways, sewage and drains.
P 274 The wearing of Personal Protective Equipment including protective clothing, organic vapour/particulate respirator, gloves, eye protection and enclosed footwear during the
application period.

The following Risk and Safety Phrases have been allocated for this product in accordance with SAFE WORK AUSTRALIA requirements. The Australian Dangerous Goods Code included.

**Risk Phrases R**

11 Highly Flammable Liquid.
21/22 Harmful by inhalation, in contact with skin and if swallowed.
36/37/38 Irritating to eyes, respiratory system and skin.
52/53 Harmful to aquatic organisms, may cause long term adverse effects to the aquatic environment.
65/66/67 Harmful. May cause lung damage if swallowed. Repeated or prolonged exposure may cause skin dryness and cracking. Vapours may cause headaches, drowsiness and dizziness.

**Safety Phrases S**

2 Keep out of reach of children
7/9 Keep containers tightly closed when not in use and also in a well ventilated area.
15/16 Keep away from heat and sources of ignition.
20/21 When using, do not eat, drink or smoke.
23.5 Do not breathe the vapours or spray mists.
24/25 Avoid skin contact and with the eyes.
26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
27 Take off immediately all contaminated clothing.
28.1 In contact with the skin, wash immediately soap and plenty of water.
36/37/38/39 Wear protective clothing, including enclosed footwear, PVC or Neoprene gloves, organic vapour/particulate respirator including eye, hair and face protection, and hearing protection.
45 In case of accident, or if you feel unwell, seek medical advice immediately. Show the label where possible.
62 If swallowed, do not induce vomiting: seek medical advice immediately. Show the label where possible.

**ADG Classification**

**SUSMP**

Classified as a Schedule S 5 poison.

**IDENTIFICATION of the SUBSTANCE(S) and COMPOSITION**

FIRST AID MEASURES

Inhalation  If the applicator feels drowsy, dizzy, tired or experiencing headaches, remove the victim away from the contaminated area to the fresh air. Keep the victim warm and quiet until all symptoms subside. If the victim is not breathing, apply artificial respiration immediately away from the contaminated area.

Ingestion  If swallowed, and only if the person is conscious, give water to drink. **DO NOT** induced vomiting; seek URGENT medical attention if frothing from the mouth occurs.

Eyes  If splashed into eyes, hold eyelids apart, and flush the eyes continuously with running water for at least 15 minutes. Continue flushing until advised by a doctor.

Skin and Hair  If skin and hair contact occurs, remove contaminated clothing, and wash thoroughly with soap and plenty of water. Continue flushing until advised by a doctor.

First Aid Facilities  Clean Water Supply, soap or skin cleaner, barrier cream, emergency showers and eye wash stations.

Advice to Doctor  If poisoning occurs, consult with the Poisons Information Centre {Telephone 13 11 26}. Have a copy of this material safety data sheet or label available. Treat symptomatically as symptoms may be delayed for several hours after exposure.

FIRE FIGHTING MEASURES

Extinguishing Media and Requirements  Carbon Dioxide (CO₂), alcohol resistant foam, dry chemical or water spray. **DO NOT** use water jets. Bund area with sand to prevent run – off entering waterways, sewage and drains.

Hazardous Decomposition Products  On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, soot and smoke, above the boiling point.

Flammability  Highly Flammable Liquid. Flash Point = 4 °C

Specific Hazards Precautions in connection with Fire  Vapours may form explosive/air mixtures.

Fire – fighters should wear Chemical Splash Suit with attached Self – Contained Breathing Apparatus and gloves. Evacuate all non fire–fighting personnel away from the area. Turn off all electricity and power supplies. Keep containers cool with water spray or water to prevent rupture or burning. Move away all packages and equipment from the direction of the fire, if safe to do so. Keep upwind.

ACCIDENTAL RELEASE MEASURES

Emergency Procedures. Spills and Leaks  Contain all spills and leaks. Avoid contamination with spilt material on surfaces or entering waterways, drains and sewage. Remove all sources of ignition and **NO SMOKING**. Wear the recommended full body impervious clothing, gloves and breathing apparatus as per AS– NZ 1715/16. Keep upwind. Absorb all spilt contents onto sand or earth.

Disposal  Collect all residues into labelled and sealed containers for disposal via special waste collection services as per local Statutory Authority requirements.
Other Precautions

Ensure there is adequate ventilation at all times during the cleaning up period.

HANDLING and STORAGE

Precautions for Safe Handling

Highly Flammable Liquid. Remove all sources of ignition. Wear the recommended Personal Protective Equipment including organic vapour respirator, eye/face protection, protective clothing, gloves and enclosed footwear. Ensure there is adequate ventilation at all times. After use, before eating, drinking or smoking, wash all exposed skin and hair with soap and water.

Conditions of Safe Storage

Containers must be clearly labelled, rigid and strong. Store upright in a cool, dry, well ventilated area from heat, ignition sources and direct sunlight e.g. Flammable Goods Store as per AS 1940 requirements.

EXPOSURE CONTROLS

Exposure Standards

- **MAK**
  - Xylene = 350 mg/m$^3$
  - Ethyl Benzene = 440 mg/m$^3$
  - Xylene = 655 mg/m$^3$

- **STEL**
  - Toluene = 190 mg/m$^3$
  - Toluene = 565 mg/m$^3$

Biological Limited Values

There are no known Biological Limited Values have been assigned.

Engineering Controls

The use of local exhaust ventilation equipment is required. All ventilation equipment must be fitted with flame and explosion proof electrical fittings. Do not fill containers in a confined space.

PERSONAL PROTECTION

**Inhalation**

The wearing of Organic Vapour/Particulate Respirator should be worn at all times during the handling and application period.

**Eye**

The wearing of safety glasses fitted with side shields should be worn at all times during the handling and application period. Do not wear contact lenses.

**Gloves**

The wearing of Neoprene or PVC gloves should be worn at all times during the handling and application period.

**Footwear**

The wearing of enclosed footwear should be worn at all times during the handling and application period.

**Clothing**

The wearing of anti-static clothing made on natural or synthetic high temperature fibre should be worn at all times during the handling and application period.

**Hearing**

When applied by conventional spray, the wearing of hearing protection should be worn.

**Other Requirements**

Avoid contact with eyes and skin. Avoid inhaling spray mists and vapours.
PHYSICAL – CHEMICAL PROPERTIES

**Appearance**
A coloured, viscous liquid with a mild odour.

**pH**
Not required.

**Vapour Pressure**
(Butyl Acetate = 1)

**Boiling Point °C**
110 – 150 °C

**Density**
1.08 (calculated value)

**Solubility in water**
Immiscible

**Flash Point °C**
4 °C (literature value)

**Flammability**
Lower Explosive Limit = 1.0
Upper Explosive Limit = 8.0

**Boiling Point °C**
110 – 150 °C

**Density**
1.08 (calculated value)

**Solubility in water**
Immiscible

**Flash Point °C**
4 °C (literature value)

**Flammability**
Lower Explosive Limit = 1.0
Upper Explosive Limit = 8.0

**Volatile Organic Compounds VOC**
51 % weight/volume

**Volatile Components**
Mineral Turpentine, Ethyl Benzene, Xylene, Toluene.

STABILITY and REACTIVITY

**Chemical Stability**
Stable under normal conditions of use.

**Conditions to avoid**
Avoid contact with heat and all ignition sources.

**Hazardous decomposition products**
On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, soot and smoke.

**Incompatible materials**
Incompatible with strong oxidizing agents

**Hazardous Reactions**
Will not polymerize.

</table>

**Acute Oral Toxicity**
Low toxicity. Aspiration into lungs when swallowed or vomited may cause chemical pneumonitis which can be fatal.

**Acute Dermal Toxicity**
Low toxicity.

**Acute Inhalation Toxicity**
Low toxicity. High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death.
TOXICOLOGICAL INFORMATION (CONTINUED)

**Health Effects**

**Inhalation**
The inhalation of vapours may cause acute irritation to the respiratory system. Other symptoms may cause central nervous system depression resulting in headaches, dizziness, nausea, loss of co-ordination, impaired judgement. Vapours may cause headaches, drowsiness and dizziness.

**Ingestion**
Large quantities may cause nausea and vomiting. Harmful. May cause lung damage if swallowed.

**Eyes**
May irritate to the eyes, including burning sensation, redness, swelling and/or blurred vision. Also, may cause decreased in colour perception.

**Skin**
May have degreasing effect on the skin may result in contact dermatitis. Repeated or prolonged exposure may cause skin dryness and cracking.

**Carcinogenic**
No evidence of a carcinogenic effect

**Mutagenic**
Not mutagenic in animal studies.

**Reproductive Toxicity**
No data available

---

ECOLOGICAL INFORMATION

**Environment**
Harmful to aquatic organisms, may cause long term adverse effects to the aquatic environment

**Persistence/ Degradability**
No data available.

**Mobility**
No data available

**Environment Protection**
Not Known

---

DISPOSAL CONSIDERATIONS

Collect all residues and placed into labelled and sealed containers. Do not incinerate empty containers after use. Dampen all unwanted cloths and rags in water prior to disposal. Do not recycle contents. Crush all small empty containers. Large containers and drums may be sent to an approved drum recycler. Ensure all contents do not pollute waterways, drains and sewage.
