HAZARD IDENTIFICATION

The product is classified as Hazardous Substance in accordance with SAFE WORK Australia – Hazardous Substances Information System {HSIS 2013} AUSTRALIA, Global Harmonised System {GHS} and Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

## GHS PRECAUTIONARY STATEMENTS

### General Precautionary Statements

**P 101/102/103**
If medical advice is needed, have product container or label readily available. Keep out of reach of reach of children. Carefully read the label and understand before prior to application.

### Prevention Precautionary Statements

**P 233/234/235**
Keep in original container(s) tightly closed when not use in and stored in a well ventilated area from moisture. Ensure that all electrical equipment and lighting is explosion proof and protected from heat sources.

**P 261/264/270/273/280**
During the application period, used in a well ventilated area, NO SMOKING, consumption of food and liquids. Wear the protective clothing including hearing and eye protection at all times, including both facial and gloves, and protective footwear. The wearing of organic vapour face respirator required. Hearing protection required when applying by conventional (compressed air) spray. During the application, do not breathe spray mist, dust or fumes

### Response Precautionary Statements

**P 302**
If swallowed, rinse mouth immediately with plenty of water. If any burning occurs, urgently contact the POISONS INFORMATION CENTRE on 13 11 26 for medical advice.

**P 303**
If on skin, carefully wash the contaminated area with warm water and soap immediately. Dry cautiously without damaging the affected area and apply an antiseptic ointment. Seek medical advice if any irritation occurs.

**P 304**
If inhaled, removed oneself to fresh air from the contaminated area and keep warm in a comfortable position. Seek medical advice if any symptoms immediately

**P 305**
If in eyes, immediately flush with plenty of water. Remove contact lenses if safe to do so if worn. Contact urgent medical advice immediately if any irritation or blurring occurs.

**P 306**
If splashed onto personal protective clothing, removed all contaminated clothing and wash with plenty of water immediately before reuse.

### Emergency Response Precautionary Statements

**P 370**
To fight fire at a reasonable distance, using dry sand or earth, or alcohol resistant foam. If safe to do so, remove all electrical equipment in the direction of fire. Ensure all power supplies are switched off.

**P 375**
Containers may explode on heating and ignite rapidly. Spilt contents can present a significant fire risk. If safe to do so, remove all damaged container(s) away from the direction of fire and leaks can be absorbed onto dry sand to prevent further damage. Consider evacuating the area as the fire may spread

### Storage Precautionary Statements

**P 402/403/404**
Store in a dry, well ventilated place in closed, clearly labelled containers away from heat and sunlight in a Flammable Goods Store. Ensure all areas and entrances are readily accessible at all times

### Disposal Precautionary Statements

**P 501**
Dispose carefully unused contents and container(s) to an approved waste disposal site. Further information may be obtained by contacting the Local Statutory Authorities. Ensure all package(s) are labelled as PAINT, U.N 1263, CLASS 3, HAZCHEM 3[Y]E

PRODUCT USE: HICHEM MOTORSPRAY TOP COAT CLEAR is a premium quality automotive clear lacquer as spot repair coating for motor vehicles. For further information, contact HICHEM helpdesk. Telephone 03 9796 3034.

FIRST AID MEASURES

Inhalation
If the operator feels drowsy, dizzy, tired or experiencing headaches, remove the victim away from the contaminated area to the fresh air. Keep the victim warm and quiet until all symptoms subside. If the victim is not breathing, apply artificial respiration immediately away from the contaminated area.

Ingestion
If swallow, and only if the operator is conscious, give water to drink. **DO NOT** induced vomiting; seek URGENT medical attention if frothing from the mouth occurs.

Eyes
If splashed into eyes, hold eyelids apart, and flush the eyes continuously with running for at least 15 minutes. Continue flushing until advised by a doctor.

Skin and Hair
If skin and hair contact occurs, remove contaminated clothing, and wash thoroughly with soap and plenty of water. Continue flushing until advised by a doctor.

**First Aid Facilities**
Clean Water Supply, soap or skin cleaner, barrier cream, emergency showers and eye wash stations.

**Advice to Doctor**
If poisoning occurs, consult with the Poisons Information Centre (Telephone 13 11 26). Have a copy of this safety data sheet or label available. Treat symptomatically as symptoms may be delayed for several hours after exposure.
FIRE FIGHTING MEASURES

Extinguishing Media and Requirements
Carbon Dioxide (CO₂), alcohol resistant foam, dry sand or water spray. **DO NOT** use water jets. Bund area with sand to prevent run – off entering waterways, sewage and drains.

Hazardous Decomposition Products
On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, soot and smoke, above the boiling point

Flammability
Highly Flammable Liquid. Flash Point = 4 °Celsius

Specific Hazards
Vapours may form explosive/air mixtures.

Precautions in connection with Fire
Fire – fighters should wear Chemical Splash Suit with attached Self – Contained Breathing Apparatus incorporating an Organic Vapour Respirator and gloves. Evacuate all non fire–fighting personnel away from the area. Turn off all electricity and power supplies. Keep containers cool with water spray or water to prevent rupture or burning. Move away all packages and equipment from the direction of the fire, if safe to do so Keep upwind.

ACCIDENTAL RELEASE MEASURES

Emergency Procedures.
Spills and Leaks
Contain all spills and leaks. Avoid contamination with spilt material on surfaces or entering waterways, drains and sewage. Remove all sources of ignition and **NO SMOKING**. Wear the recommended full body impervious clothing, gloves and breathing apparatus as per AS– NZ 1715/16. Keep upwind. Absorb all spilt contents onto sand or earth.

Disposal
Collect all residues into labelled and sealed containers for disposal via special waste collection services as per local Statutory Authority requirements.

Other Precautions
Ensure there is adequate ventilation at all times during the cleaning up period.

HANDLING and STORAGE

Precautions for Safe Handling
Highly Flammable Liquid. Remove all sources of ignition. Wear the recommended Personal Protective Equipment including organic vapour respirator, eye/face protection, protective clothing, gloves and enclosed footwear. Ensure there is adequate ventilation at all times. After use, before eating, drinking or smoking, wash all exposed skin and hair with soap and water.

EXPOSURE CONTROLS for 8 hours

<table>

PERSONAL PROTECTION

Inhalation
AS – N Z S 1 7 1 5 / 1 6
The wearing of Organic Vapour Respirator should be worn at all times during the application and handling period.

Eye
AS – N Z S 1 3 3 7
The wearing of safety glasses fitted with side shields should be worn at all times during the application and handling period. Do not wear contact lenses.

Gloves
AS – N Z S 2 1 6 1
The wearing of Neoprene or PVC gloves should be worn at all times during the application and handling period.

Footwear
AS – N Z S 2 2 1 0
The wearing of enclosed footwear should be worn at all times during the application and handling period.

Clothing
AS – N Z S 2 9 1 9
The wearing of anti–static clothing made on natural or synthetic high temperature fibre should be worn at all times during the application and handling period.

Hearing
AS – N Z S 1 2 7 0
Not required

Other Requirements
Avoid contact with eyes and skin at all times. Avoid inhaling vapours.

PHYSICAL – CHEMICAL PROPERTIES

Appearance
A colourless liquid with a perfume type odour.

pH
Not required.

Vapour Pressure
Greater than 1

Butyl Acetate = 1

Boiling Point "C
111 to 125 °Celsius

Density
0.94

Solubility in water
Immiscible

Flash Point "C
4 °Celsius (literature value)

Flammability Limits
Lower Explosive Limit = 1.0
Upper Explosive Limit = 11.3

Auto Ignition °C
315 °Celsius (literature value)

Volatile Organic Compounds VOC
50.0 % volume/volume

Volatile Components
Liquid Aromatic Hydrocarbons, Aliphatic Esters and Ketones.

STABILITY and REACTIVITY

Chemical Stability
Stable under normal conditions of use.

Conditions to avoid
Avoid contact with heat and all ignition sources.

Hazardous decomposition products
On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, soot and smoke.

Incompatible materials
Incompatible with strong oxidizing agents

Hazardous Reactions
Will not polymerize.

Acute Inhalation Toxicity  Low toxicity. High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death.

Acute Dermal Toxicity     Low toxicity.

Acute Oral Toxicity       Low toxicity. Aspiration into lungs when swallowed or vomited may cause chemical pneumonitis which may be fatal.

TOXICOLOGICAL INFORMATION (CONTINUED)

Health Effects – Toxicological and Other Health Information
Inhalation        No data available
Ingestion         No data available.
Eyes              If in eyes, may cause other symptoms including burning sensation, redness, swelling and/or blurred vision. Also, may cause decreased in colour perception.
Skin              May have degreasing effect on the skin may result in contact dermatitis. Repeated or prolonged exposure may cause skin dryness and cracking.
Carcinogenic      Not carcinogenic in animal studies
Mutagenic         Not mutagenic in animal studies.
Reproductive       No data available.
Toxicity          

ECOLOGICAL INFORMATION

Environment       May cause long lasting harmful effects in the aquatic environment.
Persistence/     No data available.
Degradability
Mobility          No data available
Environment      Not Known
Protection

DISPOSAL CONSIDERATIONS

Collect all residues and placed into labelled and sealed containers. Do not incinerate empty containers after use. Dampen all unwanted cloths and rags in water prior to disposal. Do not recycle contents. Crush all small empty containers. Large containers and drums may be sent to an approved drum recycler. Ensure all contents do not pollute waterways, drains and sewage.
TRANSPORT INFORMATION

UN number 1263
Proper Shipping Name PAINT RELATED MATERIAL
Class 3  Subsidiary Risk Not Required
Packing Group II Initial Emergency Response Guide 14
Emergency Procedures EP 3300
