HAZARD IDENTIFICATION
The product is classified as Hazardous Substance in accordance with Safe Work Australia – Hazardous Substances Information System {HSIS 2013} AUSTRALIA, Global Harmonised System {GHS} and Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

GHS HAZARDOUS STATEMENTS

<table>
<thead>
<tr>
<th>Statement Type</th>
<th>Statement ‘P’</th>
<th>Precautionary Statement Text</th>
</tr>
</thead>
<tbody>
<tr>
<td>General</td>
<td>P 101</td>
<td>Seek medical advice if required</td>
</tr>
<tr>
<td>Precautionary</td>
<td>P 102/3</td>
<td>Carefully read and understand this document during application and handling period. Keep out of reach of children.</td>
</tr>
<tr>
<td>Prevention</td>
<td>P 233/34/35</td>
<td>Keep in original container and tightly closed in a cool dry place when not in use.</td>
</tr>
<tr>
<td></td>
<td>P 241</td>
<td>Ensure all equipment and lighting is explosion proof during the manufacturing and handling period.</td>
</tr>
<tr>
<td></td>
<td>P 261</td>
<td>Avoid breathing vapours during application and handling period.</td>
</tr>
<tr>
<td></td>
<td>P 264</td>
<td>Wash all exposed skin and hair after manufacturing and handling period with soap and warm water.</td>
</tr>
<tr>
<td></td>
<td>P 270</td>
<td>Do not smoke, eat or drink during manufacturing and handling period.</td>
</tr>
<tr>
<td></td>
<td>P 273</td>
<td>Avoid release to the environment includes drains, sewage and waterways, and atmosphere.</td>
</tr>
<tr>
<td></td>
<td>P 280</td>
<td>The wearing of protective clothes with gloves, vapour mask, face and eye protection during manufacturing and handling period.</td>
</tr>
<tr>
<td>Response</td>
<td>P 301/10</td>
<td>If swallowed, rinse the mouth water immediately. Contact the Poisons Information Centre (Telephone 13 11 26) urgently.</td>
</tr>
<tr>
<td></td>
<td>P 303/13/62</td>
<td>If on skin or hair, wash all exposed area with plenty of warm water and soap. Seek medical advice if any irritation occurs. Remove all contaminated clothing immediately.</td>
</tr>
</tbody>
</table>
P 304/13  If inhaled, removed oneself to fresh air from the contaminated area and keep warm in a comfortable position. Seek medical advice if any symptoms immediately

P 305/13  If in eyes, immediately flush with plenty of water. Remove contact lenses if safe to do so if worn. Contact urgent medical advice immediately if any irritation or blurring occurs.

P 306/62/63  If splashed onto clothing, removed all contaminated clothing and wash with plenty of water immediately before reuse

P 370/72/75  If case of fire, use dry sand or earth, or alcohol resistant foam. Containers may explode on heating. If safe to do so, remove all electrical equipment in the direction of fire. Ensure all power supplies are switch off.

P 380/81  Consider evacuating the area if the fire presents a threat. Eliminate all ignition sources if safe to do so.

P 390/91  Collect and absorb all spillages onto dry sand or earth and placed into clean, dry and labelled containers prior to disposal.

Storage  P 402/03  Store in a cool, well dry and ventilated place in a Flammable Goods Store and away from direct sunlight and moisture.

Disposal  P 501  Dispose carefully unused contents and container(s) to an approved waste disposal site. Further information may be obtained by contacting the Local Statutory Authorities. Ensure all package(s) are labelled as PAINT, U.N 1263, CLASS 3, HAZCHEM 3[Y]E

Product Usage.  HICHEM CHROME COAT is a quick drying enamel apply by spray onto both interior and exterior surfaces that produces a bright chrome like finish. For further information contact HICHEM helpdesk on (03) 9796 3034.

FIRST AID MEASURES

**Inhalation**
If the operator feels drowsy, dizzy, tired or experiencing headaches, remove the victim away from the contaminated area to the fresh air. Keep the victim warm and quiet until all symptoms subside. If the victim is not breathing, apply artificial respiration immediately away from the contaminated area.

**Ingestion**
If swallowed, and only if the operator is conscious, give water to drink. **DO NOT** induced vomiting; seek URGENT medical attention if frothing from the mouth occurs.

**Eyes**
If splashed into eyes, hold eyelids apart, and flush the eyes continuously with running for at least 15 minutes. Continue flushing until advised by a doctor.

**Skin and Hair**
If skin and hair contact occurs, remove contaminated clothing, and wash thoroughly with soap and plenty of water. Continue flushing until advised by a doctor.

**First Aid Facilities**
Clean Water Supply, soap or skin cleaner, barrier cream, emergency showers and eye wash stations.

**Advice to Doctor**
If poisoning occurs, consult with the Poisons Information Centre \{Telephone 13 11 26\}. Have a copy of this safety data sheet or label available. Treat symptomatically as symptoms may be delayed for several hours after exposure.

FIRE FIGHTING MEASURES

**Extinguishing Media and Requirements**
Carbon Dioxide \{CO₂\}, alcohol resistant foam, dry chemical or water spray. **DO NOT** use water jets. Bund area with sand to prevent run – off entering waterways, sewage and drains.

**Hazardous Decomposition Products**
On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, soot and smoke, above the boiling point

**Flammability**
Highly Flammable Liquid. Flash Point = 4 °Celsius

**Specific Hazards**
Vapours may form explosive/air mixtures.

**Precautions in connection with Fire**
Fire – fighters should wear Chemical Splash Suit with attached Self – Contained Breathing Apparatus incorporating an Organic Vapour Respirator and gloves. Evacuate all non fire-fighting personnel away from the area. Turn off all electricity and power supplies. Keep containers cool with water spray or water to prevent rupture or burning. Move away all packages and equipment from the direction of the fire, if safe to do so Keep upwind.
ACCIDENTAL RELEASE MEASURES

**Emergency Procedures.**
Contain all spills and leaks. Avoid contamination with spilt material on surfaces or entering waterways, drains and sewage. Remove all sources of ignition and **NO SMOKING.**

**Spills and Leaks**
Wear the recommended full body impervious clothing, gloves and breathing apparatus as per AS–NZ 1715/16. Keep upwind. Absorb all spilt contents onto sand or earth.

**Disposal**
Collect all residues into labelled and sealed containers for disposal via special waste collection services as per local Statutory Authority requirements.

**Other Precautions**
Ensure there is adequate ventilation at all times during the cleaning up period.

HANDLING and STORAGE

**Precautions for Safe Handling**
Highly Flammable Liquid. Remove all sources of ignition. Wear the recommended Personal Protective Equipment including organic vapour respirator, eye/face protection, protective clothing, gloves and enclosed footwear. Ensure there is adequate ventilation at all times. After use, before eating, drinking or smoking, wash all exposed skin and hair with soap and water.

EXPOSURE CONTROLS for 8 hours

**Exposure Standards**
- Xylene = 350 milligram/cubic metre.
- Toluene = 190 milligram/cubic metre
- Solvent Naphtha Petroleum Light Aromatic = 100 milligram/cubic metre
- Ethyl Benzene = 435 milligram/cubic metre

PERSONAL PROTECTION

**Inhalation**
The wearing of Organic Vapour Respirator **should** be worn at all times during the application and handling period.

**AS –NZS 1715/16**

**Eye**
The wearing of safety glasses fitted with side shields **should** be worn at all times during the application and handling period. Do not wear contact lenses.

**Gloves**
The wearing of Neoprene or PVC gloves **should** be worn at all times during the application and handling period.

**AS –NZS 2161**

**Footwear**
The wearing of enclosed footwear **should** be worn at all times during the application and handling period.

**Clothing**
The wearing of anti-static clothing made on natural or synthetic high temperature fibre **should** be worn at all times during the application and handling period.

**AS –NZS 2919**

**Hearing**
Not required

**AS –NZS 1270**

**Other Requirements**
Avoid contact with eyes and skin at all times. Avoid inhaling vapours.
PHYSICAL – CHEMICAL PROPERTIES

**Appearance**  A silvered coloured liquid with a mild odour.

**pH**  Not required.

**Vapour Pressure**  Greater than 1

**Boiling Point °C**  111 to 150 °Celsius

**Density**  0.98 {calculated value}

**Solubility in water**  Immiscible

**Flash Point °C**  4 °Celsius (literature value)

**Flammability**  Lower Explosive Limit = 1.0  Upper Explosive Limit = 7.8

**Auto Ignition °C**  535 °Celsius (literature value)

**Volatile Organic Compounds VOC**  60.0 % volume/volume

**Volatile Components**  Liquid Aromatic Hydrocarbons.

STABILITY and REACTIVITY

**Chemical Stability**  Stable under normal conditions of use.

**Conditions to avoid**  Avoid contact with heat and all ignition sources.

**Hazardous decomposition products**  On heating, containers may rupture and explode: contents may burn rapidly forming toxic gases including carbon monoxide, nitrogen oxides, soot and smoke.

**Incompatible materials**  Incompatible with strong oxidizing agents

**Hazardous Reactions**  Will not polymerize.

Acute Inhalation Toxicity  Low toxicity. High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death.

Acute Dermal Toxicity  Low toxicity.

Acute Oral Toxicity  Low toxicity. Aspiration into lungs when swallowed or vomited may cause chemical pneumonitis which may be fatal.
TOXICOLOGICAL INFORMATION (CONTINUED)

Health Effects – Toxicological and Other Health Information

Inhalation  No data available
Ingestion No data available.
Eyes If in eyes, may cause other symptoms including burning sensation, redness, swelling and/or blurred vision. Also, may cause decreased in colour perception.
Skin May have degreasing effect on the skin may result in contact dermatitis. Repeated or prolonged exposure may cause skin dryness and cracking.
Carcinogenic Not carcinogenic in animal studies
Mutagenic Not mutagenic in animal studies.
Reproductive Toxicity No data available - may impair fertility.

ECOLOGICAL INFORMATION

Environment May cause long lasting harmful effects in the aquatic environment.
Persistence/ Degradability No data available.
Mobility No data available
Environment Protection Not Known

DISPOSAL CONSIDERATIONS

Collect all residues and placed into labelled and sealed containers. Do not incinerate empty containers after use. Dampen all unwanted cloths and rags in water prior to disposal. Do not recycle contents. Crush all small empty containers. Large containers and drums may be sent to an approved drum recycler. Ensure all contents do not pollute waterways, drains and sewage

TRANSPORT INFORMATION

UN number 1263
Proper Shipping Name PAINT
Name Not Other Specified – immiscible in water
Class 3 Subsidiary Risk Not Required
Packing Group II
Emergency EP 3300 Initial Emergency Response Guide
Procedures
HAZCHEM 3[Y5E] IMDG Not Known
REGULATORY INFORMATION

The product is classified as Hazardous Substance in accordance to SAFE WORK AUSTRALIA (HSIS) and Globally Harmonised System as Harmful and Irritant.

Classified as a Schedule S 5 Poison.
